

Enhance Safety, Minimize Cargo Hold Damage, and Ensure Compliance

Products that are often used for cargo hold cleaning contain HME (Harmful to the Marine Environment) substances such as sodium hypochlorite (bleach). Hence, they cannot be discharged into the sea with wash water as per Marpol Annex V.

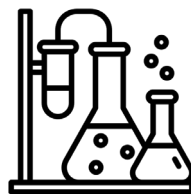

In addition, they permanently damage cargo hold coatings, which leads to corrosion and makes cleaning even more difficult.

In many cases, the equipment used for the cleaning process is improper, damaged, or simply not fit for purpose, leading to unsafe work practices and poor cleaning results.

To avoid these scenarios, we recommend using the correct chemicals and equipment right from the start.

Innovative Cleaning Solutions

Effective & Targeted Chemistry

Reliable Performance

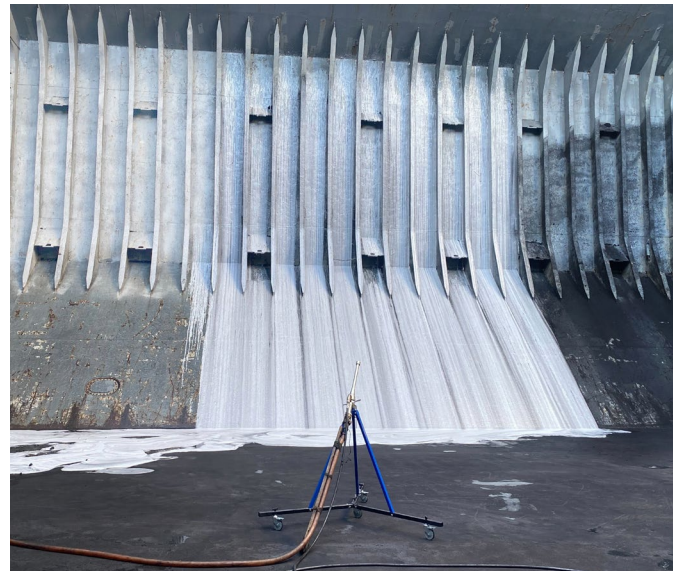

Advanced and effective chemistry for more efficient cargo hold cleaning

CargoClean HD [NEW Formula] **NEW**

The Unitor™ CargoClean HD boasts a new enhanced formula that increases the contact time between the chemical and the surface, allowing for the removal of the toughest of cargo residues such as coal and petcoke.

Key features:

- Enhanced foam density and stability increases contact time between the chemical and the surface
- Improved cleaning performance while using a dosage rate of only 10%
- High concentration formula
- Non-HME (Not harmful to the marine environment)

CargoDescale [NEW] **NEW**

The Unitor™ CargoDescale is a brand new concentrated descaler that contains ingredients specially selected to ensure the best protection against corrosion for your cargo hold, while being highly effective at removing stubborn stains from sediments such as cement and limewash.

Key features:

- Reduces corrosion risk due to inhibitor ingredients
- Active descaling accelerators make stain removal easy
- New packaging — 200-litre drums
- Non-HME (Not harmful to the marine environment)

Our complete range of cargo hold cleaning products

The best cleaning chemicals in the world are only as good as the equipment they are used with.

Save time, chemical, and effort with the right equipment.

Cargo Hold Cleaning Kits	Product Number
Panamax Cargo Hold Cleaning Kit	778855
Compact Cargo Hold Cleaning Kit	778955
High Pressure Cleaning Stain Removal	Product Number
HPCE Dynamis 500+	720131
