

Safe Transportation Of Gas Cylinders Made Easy

Wilhelmsen Ships Service (WSS) delivers gas, cylinders, racks and manifolds as one solution, providing easy and cost efficient operational management.

Solution benefits

- One procurement process, one logistics operation and one reliable supplier means efficient cylinder management
- Cylinders and racks can be returned free of charge to our key sites to support operational flexibility
- Cylinders can be refilled or returned in more than 200 WSS sites globally
- Flexible invoicing scheme to suit your land based organisation's preference
- IFS, a global operational tracking and tracing system improves asset utilisation, safety and security
- WSS ensures periodic rack inspections and re-certification every 12 and 48 months according to DNV 2.7-1
- WSS racks and gas cylinders supports your operations whether your challenge is related to welding, calibration, leakage testing, purging, or blanketing etc

Technical features

- Suitable for offshore lifting and handling of compressed gas cylinders
- Easy to handle by fork lift, truck or crane
- Great carrying capacity of 16 cylinders inside the rack
- Safety bar fitted 2/3rds height above centre of gravity for cylinders
- Two gates and loading ramps for easy loading of cylinders
- Fastening points for straps are present making it possible to safely transport less than 16 or smaller cylinders
- The rack can be equipped with a IMDG certified manifold with central outlet
- Certified wire sling is part of the rack and in some countries, certified chains will be supplied
- In accordance with; DNV Standards For Certification No. 2.7-1 Offshore Containers – June 2013
- In accordance with; EN 12079-1: 2006 Offshore Containers And Associated Lifting Sets
- In accordance with; IMO MSC/Circ.860 Guidelines For The App. Of Offshore Containers Handled In Open Sea

Technical specifications

Product number	772202
Material	Low alloy carbon steel
Footprint	1170 x 1160mm
Height	2350mm
Weight empty	450kg
Payload	1750kg
Number of cylinders	16
Colour	Blue RAL 5002 (PMS 280)
Design temperature	-20°C
Corrosion prevention	Hot dip galvanizing or 3 layer paint system

Manifold can be ordered under product number 772208
