

Inventory of Hazardous Materials (IHM)

GREEN SOLUTIONS

**Efficient, professional
and economical manner.**

Inventory of Hazardous Materials (IHM)

Wilhelmsen Ship Management provides Class certified Inventory of Hazardous Material (IHM) service for all types of vessels anywhere in the world.

Our team of certified Hazmat experts conducts IHM for both new and existing vessels in an efficient, professional and economical manner.

Service highlights & IHM process:

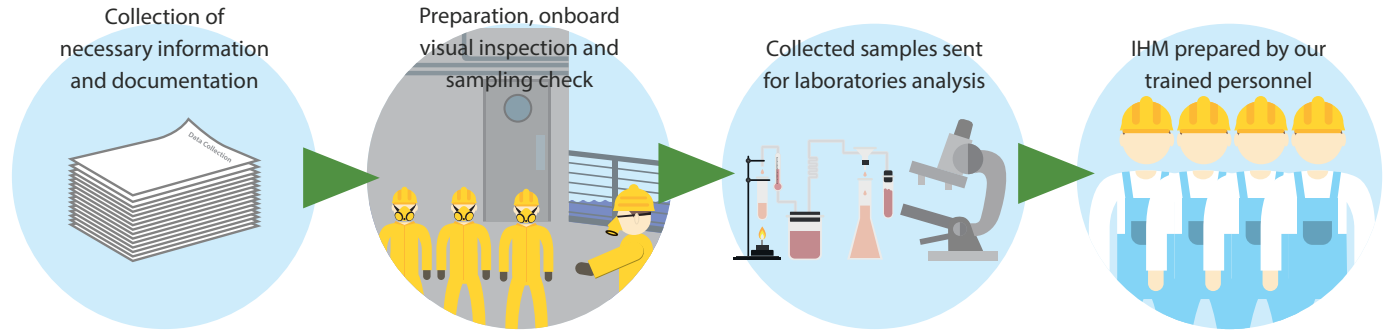

- ⊕ Collection of necessary information and documentation
- ⊕ Development of Visual Sampling Check Plan (VSCP) and onboard inspection / sampling check
- ⊕ Coordination with accredited laboratories for sample analysis
- ⊕ Preparation of IHM and issuance of Statement of Compliance (SoC)

What is IHM?

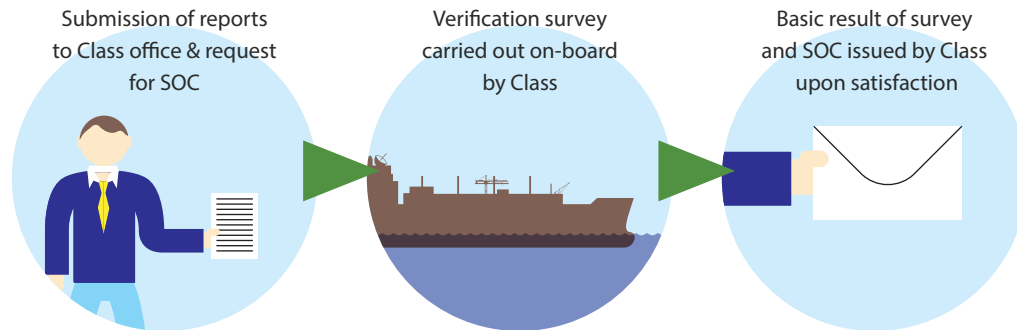

IHM is a document in which all potentially hazardous material onboard a vessel that can pose a risk to the health and safety of people or to the environment is located, identified and quantified.

What is the IHM process?

Preparation of IHM

Application for Statement of Compliance (SOC)

What makes WSM different

- 🌐 We have performed IHM on various vessels from traditional bulkers, tankers to more advanced specialized ships and offshore installations
- 🌐 WSM has a strong IHM team with certified experts, allowing us to handle IHM in an efficient, flexible and economical manner
- 🌐 WSM IHM development is in accordance to the IMO Hong Kong Convention 2009, MEPC.197(62) Guidelines and also EU Regulation No 1257/2013
- 🌐 WSM offers compliance to IHM maintenance requirements

Sample collection and labelled for sample analysis
