

Pre-Sale Inspection Process Highlights

Inspection done at competitive pricing

Utilizing our global network, our trained and experienced inspectors are ready to conduct pre-sale inspection anytime

Inspections done with crew and operations in mind

Full compliance to COVID and safety procedures with minimal interruption in operations

Review and consent from Sellers prior to report release

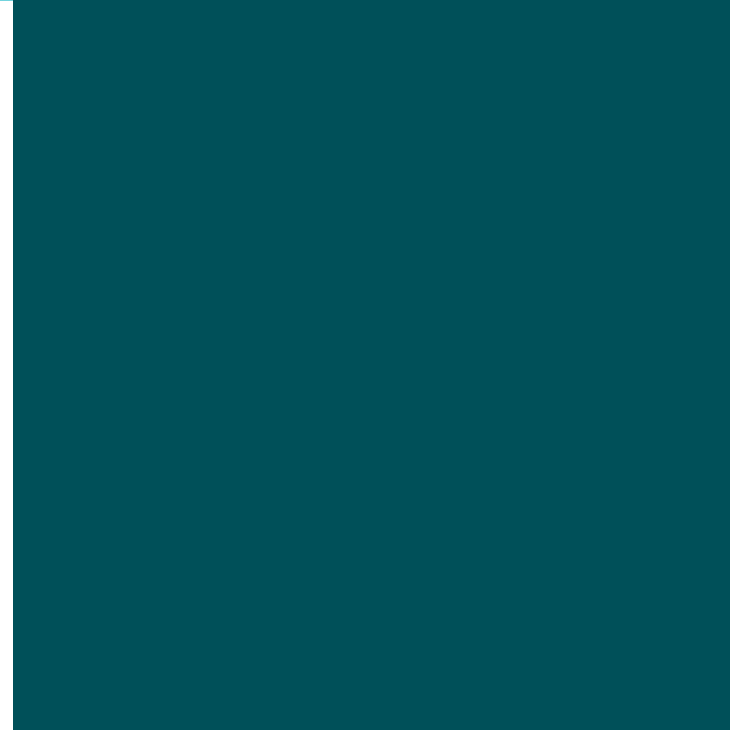

Review will be done with Sellers to verify accuracy, content and gain final consent before release

Released report accessible to all buyers

Released report is accessible by all buyers upon Seller's instruction. Seller has full control on access rights

Offset initial inspection cost with each buyer access fee

Every buyer access to the pre-sale report is charged with a fee, 50% of the access fee will be credited back to Seller

Single Pre-Sale Inspection Report that is credible, accurate and accessible by all your buyers

Protect your reputation

Only use credible reports to represent your asset's condition

Full control with integrity

Seller maintains full control of the report and its release

Successful transaction starts from trust

Increase the chances of your transaction by using factual and accurate reports made by experienced professionals
