

New placement of identification label

We've enhanced the design and placement of our rope identification tags. These improvements ensure better visibility and functionality for your ropes.

Label Overview

The tag is rectangular in shape with rounded corners for safety. Higher-quality materials have been used to enhance durability and resistance to wear.

Side A

Serial Number: A unique identification number for each rope.
QR Code

Side B

Company Logo: A clear display of our brand identity.

Label Placement

Tags are now placed inside the eye of the rope on both ends, making them easy to find and scan.
