BALLASTGUARD STS SOLID 25 KG

Product group: **658** Product number: **779212**

BallastGuard STS Solid is typically used in Ballast Water Management system to neutralize the excess chlorine/oxidant residual for ballast water discharge compliance. It's a critical consumable for ballast water management system.

Product information

BallastGuard STS Solid is one of the major preferred neutraliser for ballast water management system.

Features

- Sodium Thiosulphate Pentahydrate Solid Form
- Readily soluble in water
- Supply in 25 kg bag (USA 23 kg bag)

Benefits

- Neutralize excess chlorine/oxidant
- Applied with Ballast Water Management System for Discharge water compliance (IMO & USCG)

Specification

General

CAS No.	10102-17-7
Invent Hazard Material (IMO/EU) classification	NA

Physical properties

Appearance	Crystalline
Density [g/ml]	1.75
Form	Solid
pH	6.5 - 9.0 (as 1% solution)

Technical data

Purity	99%
---------------	-----

Documents
