

PORTABLE INCUBATOR

Product group: **661** Product number: **777930**

Accessory: A ruggedized, portable incubator is included with the base test kit. This ensures that bacteria samples are cultured at the correct temperature for consistent and reproducible results.

Product information

The incubator is designed for the reliable incubation of bacteriological slides, on-board or in a laboratory. National and European guidelines give practical advice on how to monitor, clean, test and ultimately control harmful bacteria in water systems. WSS Potable Incubator, when used in conjunction with dipslides, enables effective microbiological monitoring of cooling water in accordance with the many European guidelines.

Test parameters: Biological Tests _

Used with:

E.COLI/ COLIFORM(777932)

Features

- Robust design
- Holds up to 12 dipslides
- Excellent temperature stability

Benefits

- Portable, onboard tests
- Multiple test samples can be completed at the same time
- Constant environment for accurate incubation and readings.

Specification

General

Invent Hazard Material (IMO/EU) classification	D-1
