SALINITY TEST METER

Product group: **661** Product number: **778904**

Low cost and waterproof hand-held Salinity meter for the measurement of salinity in a range of water samples.

The Salinity Meter is used to check the IMO D1 standard is for ballast water exchange. The D1 standard specifies the volume of water to be exchanged and the target salinity of the ballast water, typically >30ppt.

Product information

Compact, easy-to-use, hand-held instruments for the accurate measurement of salinity. With robust housing and fully waterproof (IP67) casing, these testers are the ideal solution for in-situ testing in harsh marine applications.

Test Parameter: Salinity Measuring Range: Salinity 0 - 2 %

Features

- Compact & Robust
- Portable Hand-Held Meter
- Scroll-Through Functionality
- Storage function

Benefits

- Convenient and onboard testing
- Ease of use with simultaneous display of result, temperature, date/time and other measurement details
- Easy recalling of data for record keeping requirements

Specification

General

Invent Hazard Material (IMO/EU) classification	D-1
--	-----
