PORTABLE WELD.TABLE

Product group: 176 Product number: 176024

Table for safe hot work i.e. welding or AC-OX / plasma cutting work onboard at Engine Room workshop or at deck.
Easy to assemble, space saving, ergonomics and highly recommended for regular welding and cutting activities.

Product information

This sturdy worktable is made of steel and fully galvanized for corrosion protection. It includes a holding clamp for small workpieces. To ensure a stable work surface all four legs are adjustable in length. The legs have pointed ends to ensure high friction and a good hull contact when used for arc welding.

The table is excellent for use as a welding table in workshops on board, and in cases when it is needed outside the workshop it is easily transported as the legs may be detached and fastened under the table surface.

Features

- Legs can be detached and fastened under table
- Adjustable legs length
- Sturdy design made of steel fully galvanised
- Holding clamp

Benefits

- Easily transported and stored
- Stable work surface
- Long lasting high quality
- Able to weld on small work pieces
