MINIMIX 17 CO2 2% IN NITROGEN

Product group: 718 Product number: 619999

Span gases are used for calibration and bump testing of gas detection equipment.

Product information

Calibration gas delivered in a single-use 1 litre steel cylinder.

Features

- Minimix cylinder
- Composition: 2% Carbon dioxide (CO2), balance is Nitrogen

Benefits

- easy for calibration and bump testing

Specification

General

Cylinder Type	Minimix 17
Invent Hazard Material (IMO/EU) classification	NA

Dimensions/Weight

Connection [Size/ Type]	CGA600
-------------------------	--------

Technical data

Shelf life [months]	36
---------------------	----
