TRO ANALYZER STRAINER & REGULATOR ASSEMBLY

Product group: **661** Product number: **779033**

Accessory: Strainer and Regulator Assembly for CLX-XT/XT2 TRO Analyzer

Product information

The Strainer and Regulator assembly for the CLX-XT/XT2 TRO analyzer ensures the efficient and reliable operation of the instrument. The strainer filters out any impurities or particles present in the water sample before it reaches the analyzer, preventing potential damage or interference with the instrument's components. Additionally, the regulator maintains a consistent and controlled flow rate of the sample to the analyzer, ensuring accurate and reproducible measurements. Together, these components play a crucial role in optimizing the performance and longevity of the CLX-XT/XT2 TRO analyzer, providing users with dependable and precise analytical results.
