

# SODIUM THIOSULPHATE POWDER

Product group: **658** Product number: **909012**

Sodium Thiosulphate powder is used to de-chlorinate ballast waters prior to discharge to the environment.

## Product information

This product note describes the specification for Sodium Thiosulphate powder. Any product supplied under this specification must meet the properties described in the attached specification.

The chemical must be properly labeled in compliance with the present national and international laws and regulations concerning transport, health, safety and environment. A Safety Data Sheet must be provided by the manufacturer/supplier.

### Features

- Readily soluble powder
- Long shelf life

## Specification

### General

CAS No.	10102-17-7
Invent Hazard Material (IMO/EU) classification	NA

### Physical properties

Appearance	White crystals or crystalline powder
Density [kg/m <sup>3</sup> ]	1.2 to 1.3 kg/m <sup>3</sup>
Freezing Point [°C]	- 10 Deg C (30% solution)
Odour	Sulphurous

### Technical data

Purity	99% min
--------	---------
